

What's the definition of skiwear ?

Most people will get confuse between outdoor wear and skiwear. On the Jacket portion, they look very alike but in fact, the outdoor wear no need to concern about internal ventilation while skiwear is one of the compulsory criteria. Outdoor is not classified as a kind of sports, it's just a leisure activity but skiing is a kind of sports where energetic body heat and calories burns do apply during functioning.

There will have multi compartments & accessories inside the jackets to prevent snow implant, communication equipment and vision instruments storage, inner layer stitching to prevent wet snow infiltration.

All these characteristics can be found in the qualified skiwear jacket but this is not the compulsory criteria for an outdoor jacket.
